Never Let You Down

Lucas Hamming

Come to me, close baby
Take of your clothes for me
Please come let's work it outScream to me, feel baby
Don't stop me, bite your lips
Go on we'll get through the nightMaybe you don't know what you're doing lately
I just can't denyWhere do you go
Where do you stay
If even the minds go seperate ways
I will never let you down
I will never let you downWhatever I do
Whatever you say
If even our minds go separate ways
I will never let you down
I will never let you down after tonightGet off your horse lady
Don't bite that hand that feeds the poisons running through your vainsCome to me, closer baby
One hundred million heardbeats
Keeping me from thinking straightMaybe you don't know what you're doing baby
I just can't denyWhere do you go
Where do you stay
If even the minds go seperate ways
I will never let you down
I will never let you downWhatever I do
Whatever you say
If even our minds go separate ways
I will never let you down
I will never let you down after tonight(guitarsolo)Where do you go
Where do you stay
If even the minds go seperate ways
I will never let you down
I will never let you downWhatever I do
Whatever you say
If even our minds go separate ways
I will never let you down
I will never let youI will never let you down
I will never let you down
Whatever I do
Whatever you say
If even our minds go separate ways
I will never let you down

I will never let you down my baby
That's what's on my mind
