

In the Sun

Blondie

Surf's up
In the sun I'm waiting for the day
Having fun in warm far away
Moonlight nights water seems so clear
Oh city lights while I'm still waiting here
In the sun it's for everyone
In the sun were gonna have some fun
In the sun were gonna shoot the tube
I'll do it for you my paka lola luau love
New York isle is covered by gray
Concrete piles blues play my way
Tropic haze pineapple sky
Perfect wave hurricane eye
In the sun it's for everyone
In the sun were gonna have some fun
In the sun were gonna shoot the tube
I'll do it for you my paka lota burning love
In the sun it's for everyone
In the sun were gonna have some fun
In the sun were gonna shoot the tube
I'll do it for you my paka lota burning love
Where is my wave?
