Reason to Stay

JillandKate

Please don't leave me, high and dry
Please believe me, when I lie
And please protect me, when I can't fight
Please come find me, when I go hide
And please keep calling, when it's too late
Please forget past mistakes
And when I don't show, please just wait
Please don't leave me
Please just stay, yeahh
Turn around and wait, yeah
It's not too late
To save us, stay

Please remember, I'm not that strong
Please forgive me, when I do wrong
And don't forget me, when I'm gone
Please don't leave me
Please just stay, yeahh
Turn around and wait, yeah
It's not too late
To save us, stay

Things change when you walk away
Things change when you go away
Things change when you go away
So please don't leave me
Please just stay, yeahh
Turn around and wait, yeah
It's not too late
It's not too late
To save us, stay
