always imagined myself of being a superstar
whod ever thought that id actually make it this far
im from the bottom when your ready give you a chance
been threw some storms and i pick up and yuup stil here i stand
and threw this struggle and hustle i came up with a plan
im gonna use my gift to support my family ima man
and i aint perfect but trust me i do the best i can
What don't kill me makes me stronger so forgive here i am

when you in your car the road get tough
the moneys low and you've had enough
theres one way in and theres no way out
but we dont break we show em what were about
