Keep The Faith

Faith Evans

I've seen the lightning flashing
Heard the thunder roll, roll
I feel the cold winds blowing
Trying to conquer my soul
If I just hold my peace
Let the Lord fight my battles
If I can keep the faith
Through the night
And if I tell
I hear the voice of reason
Telling me to fight on
'Cuz I've come to far to turn around
Weeping may endure for a night
But joy is gonna come tomorrow
Though I go through the fire
I shall come out as pure gold
When problems come just keep the faith
It won't be long until the day
Things will turn around
If you just, just stand your ground
If I just hold my peace, let the Lord fight my battles
If I can keep the faith through the night
If I just hold my peace, let the Lord fight my battles
If I can keep the faith through the night
When problems come just keep the faith
It won't be long until the day
Things will turn around
If you just, justu stand your ground
I only have to keep the faith
I only have to keep the faith, the faith
I only have to keep the faith
I only have to keep the faith, the faith
If I just hold my peace, let the Lord fight my battles
If I can keep the faith through the night
I only have to keep the faith, the faith
I only have to keep the faith
I only have to keep the faith, the faith
I only have to keep the faith
I only have to keep the faith, the faith

I only have to keep the faith
I only have to keep the faith, the faith
I only have to keep the faith
I only have to keep the faith, the faith
I only have to keep the faith
I only have to keep the faith, the faith
