

Heaven and Earth

Kylie Minogue

I don't really wanna be the one
To tell you time is running out
Because it's obvious
Just a move with the right intention
Is all that it takes I don't really need to be the one
To tell you things are going wrong
Because it's obvious
But a step in the right direction
Is all that you need You don't have to move heaven and earth
You don't have to change overnight
There's never been a better time
To make up your mind
And put this thing right I don't mean to say that we were wrong
But we know we need some new attention
But just look with a new dimension
Is all that it takes You don't have to move heaven and earth
You don't have to change overnight
There's never been a better time
To make up your mind
And put this thing right Everybody knows where they can make
A change or two
To help the situation
Just a step with a good intention
Is all that it takes You don't have to move heaven and earth
You don't have to change overnight
There's never been a better time
To make up your mind
And put this thing right You don't have to move heaven and earth
You don't have to change overnight
There's never been a better time
To make up your mind
And put this thing right
