

Necromancer

Judas Priest

Born out of hell from the depths of Gomorrah
Purging new graves and defiling the souls
He satiates with such vile and dark horror
Omens of dread on this night of the ghouls Raising the dead up from the ground
Needs must be fed, sorcerers abound Necromancer
Death's his guiding light
Necromancer
Stealing afterlife
Feeding on flesh from the soil that was hallowed
Splintered the bones and regained in his feast
Danced on the grave of the pure and the righteous
As the moonlight's expelled from the eyes of the beast Raising the dead, blasphemy reigns
Portents of dread thrives on remains Necromancer
Feeding from the host
Necromancer
Black unholy ghost Necromancer
Death's his guiding light
Necromancer
Stealing afterlife Raising the dead, cadaver consumed
Sacraments said, bodies exhumed
Necromancer
Feeding from the host
Necromancer
Black unholy ghost
Necromancer
Death's his guiding light
Necromancer
Stealing afterlife Stealing afterlife
Death's his guiding light
