

Deja Vu

En Vogue

Baby, baby, I just caught a good vibe when you pass me by

(Deja vu)

Baby, feeling like I feel you caught my eyes

(Deja vu)

Mercy, mercy, you got me

It's electric inside me

And I know you feel the same way

You turned around, yeah Now it's getting hot,

Please don't let it stop

Is it real or not?

Hope it never stops

Now it's getting hot,

Please don't let it stop

Is it real or not?

Hope it never stops

(Deja vu)

(Deja vu)

Think I have caught a glimpse of Heaven

When I saw your smile

(Deja vu)

I'd be lying if I told you those glimpse didn't cross my mind

Uh, I'd like to get down with you

Take a trip and fly high with you

Doesn't matter if it's all in my mind

Oh, it feels so right

Yeah Now it's getting hot,

Please don't let it stop

Is it real or not?

Hope it never stops

Now it's getting hot,

Please don't let it stop

Is it real or not?

Hope it never stops

(Deja vu)

(Deja vu)

You & I could have a little something

As you get close, my heart is jumping

Up, up in the thought, I can't fake it

Could this be real or is it deja vu? Falling, falling

Catch me in your arms
We'll be flying, flying
I'm not ever coming down
Uh, you're so cool
Like a never ending dancing
Fairytale romance with you
Come true, with you
Coming true
Stop! Is it real or not?
Hope it never stops
Now it's getting hot,
Please don't let it stop
Is it real or not?
Hope it never stops
(Deja vu)
(Deja vu)(Deja vu)
(Deja vu)
