

Other Side

Rebelution

Ooh yea (x4)

How you feeling? How you feeling? People, take it easy canâ€™t you see that Iâ€™m busy now
Iâ€™ve got a knack for some trouble believe me, and lately Iâ€™ve been trying to block it out
Iâ€™ve got a strange little other side, a temptation that I try to hide
Just like a pretty girl saying do or die *that's right*
Oh, And I can tell when I look at you
Oh, That youâ€™ve been going what Iâ€™m going through
The same thing happens, the same thing happens
But Iâ€™ve been thinking I can be a better man see
Instead of taking life for granted I feel lucky to be alive, good how Iâ€™ll feel inside
And from now on weâ€™re taking big strides

Ooh yea (x4)

Hold up, now yes Iâ€™m on something great, if you know you relate, no oneâ€™s perfect
And if you think you canâ€™t count your mistakes, think again, cuz I know that you can
Dear sir, Iâ€™m pretty sure that we grow every day based on simple mistakes that we make *like*
There ainâ€™t no easy way, *say it again,* there ainâ€™t no easy way
Oh, And I can tell when I look at you
Oh, You know exactly what Iâ€™m going through
The same thing happens, the same thing happens
But you keep thinking you can be this better man see
Instead of taking life for granted youâ€™ll feel lucky to be alive, good how youâ€™ll feel inside
And from now on weâ€™re taking big strides.

Ooh yea And all through real life it goes like

Ooh yea (x7)
