Depth of Field

Paradigm

Well, the field is wide open
With endless new lands
And infinite landscapes

For us to create, nowYeah, I want to live in another light

Yeah, I want to live

Here the walls keep closing

As we suffocate, but a door just opened, wideYeah, I want to live in another light

Yeah, I want to live

Ohh, we cannot let us die

We must prepare, prepareFor the time to rise and then

We'll face the truth

Ohh, we cannot let us die

We must prepare, prepareFor the time to rise and then

We'll face ourselves

We'll face, we'll face ourselves

We'll face, we'll face ourselvesOhh, yeah, I want to live in another light

Yeah, I want to live

We'll face, we'll face ourselves

We'll face, we'll face ourselves
