Nite Time (Gerry Cueto Remix) [feat. Kate Walsh]

George Acosta

Time to go
It's time to go
Whatever this means
He's happy it seems
After night
In boundless light
He calls my name
I do the same
After this
A simple kiss
Return my eyes
A true disguise
(Echo) After this
A simple kiss
Return my eyes
A true disguise
So I'll be a fleeting sound
A lightray out on the water
And I'll know his secret name
And tell him about the night time
tell him about the night time
tell him about the night time
tell him about the night time
Time to go
It's time to go
Whatever this means
He's happy it seems
After night
In boundless light
He calls my name
I do the same
So I'll be a fleeting sound
A lightray out on the water
And I'll know his secret name
And tell him about the night time
tell him about the night time
tell him about the night time
tell him about the night time
