

Off the Beaten Path

Music from the World of Osho

Here ya go honey yeah hereâ€™s some Patron
You better sip it slow, itâ€™s bad to the bone
Donâ€™t want you gettinâ€™ too far gone
And I have to tote ya out of here roll you on home
Keep on shaking that money maker
Theyâ€™re just jealous just bunch of haters
The rest of this nightâ€™s gonna be what we make it
Thereâ€™s some wild in that smile baby what you say we take it

[Chorus]

Off the beaten path
One foot on the dash and one on the floorboard
Off the beaten path
Country rock crankinâ€™ through speakers in the four door
Silverado baby do you wanna go
Out where the good love grows
Off the beaten path, yeah

I could sit right here and watch you dance all night
â€™Til the sun comes up â€™til they turn out the lights
That drunk son of a buckâ€™s â€™bout to have him a fight
If he donâ€™t watch his step heâ€™ll get a left then a right
What you mean you never sat in a jacked up truck
Well Iâ€™ll be damned girl youâ€™re in luck
Thereâ€™s a little spot out there Iâ€™d like to show ya
By the light of the radio Iâ€™d like to get to get to know ya

[Chorus]

Off the beaten path
One foot on the dash and one on the floorboard
Off the beaten path
Country rock crankinâ€™ through speakers in the four door
Silverado baby do you wanna go
Out where the good love grows
Off the beaten path, yeah

Like a deep groove country song baby
I wanna turn you on, yeah

[Chorus]

Off the beaten path
One foot on the dash and one on the floorboard
Off the beaten path
Country rock crankin'™ through speakers in the four door
Silverado baby do you wanna go
Out where the good love grows
Off the beaten path, yeah

Off the beaten path

Baby let me take ya
Baby let me take ya

Baby let me take ya
Off the beaten path
