I Wear Dickies

Smoov-E

Did you tell them that you really wanna see that
Did you tell them where you really wanna be at
I can tell that you already knew
Ooo ,Like a charleston chew
i can tell that you really should grow up
and i could tell that you really would blow up
ill tell you where i really wanna go
up against the car, fast and slow
I can tell that you weren't disgusted
By the style that smoov-e thrusted
and I can tell that you like the size
Ooo, use some astro glide
I can tell that you just couldn't help it
And i can tell it felt just like velvet
I can tell that you really wanna bite
on your bottom lip bump-bumpin all night
I got this big dick, so i wear dickies
I pack a tube of lube, sometimes it's tricky
I got this big dick, oh what a blessing
I said call me up, for your free lesson
you never ask where the rope or the weed at
you never ask where the coke or the keys at
i can tell that you already knew
ooo, yeah we got that too
i can tell that you didn't expect this
bare pickle in the back of your lexus
ill tell you what i really did like
she blew bomb on the parliament lights
you can tell by the size of my dickies
my dicks long as the mississippi
you can tell by the tone of my voice
ooo, make pussies moist
back door and you know she just let's us (??)
make the video with triple ex's (??)
i can tell that you really wanna fuck
bought a tube of lube so i don't get stuck
