

# Alice

## Moby

### Chorus 1

My head keeps turnin' turnin'  
Like Russian roulette  
Thoughts are like bullets  
I cannot do this...do this...do this... do this... do this

### Chorus 2

Out of my field, out of my brain  
Got it going on, when you make it insane  
Gonna make it my love time, make it my love time

### Chorus 3

Cause this is the right world  
This is the wrong world  
This is the one world  
This is the dark world  
This is a short world  
This is a short world  
Can you become girl? Here in this fun world.

### Verse 1

Psychosomatic imagine having shadows creep from the sadness  
The mirrors cracking and shatters, walls are chatting  
Having tea with Alice and Rabbit, I wonder where I put my chalice  
Chemically I'm imbalanced until I channel  
Dragon through the heart of the devil, my minutes long as forever  
My thoughts are spinning propellers to higher levels  
Severed from your loving, I'm troubled I talk to no one  
And no one told there's no one, I fell and then I woke up  
Where I'm not supposed to where padded rooms like sofas  
They told me it's for my own good but voices are on my shoulder  
The planet of the vultures devoted keep revolving  
The spider web around my vocals, I call for help, but no one knows it  
This is why I'm focusing mostly upon my my own shit.  
I told you, I'm not the culprit, I'm only the one you notice  
Walkin across the ocea, explosives on locomotives  
I'm hopeless without you, notice I'm going out of my marbles

### Chorus 2

Out of my field, out of my brain  
Got it going on, when you make it insane  
Gonna make it my love time, make it my love time

### Chorus 3

Cause this is the right world  
This is the wrong world  
This is the one world  
This is the dark world  
This is a short world  
This is a short world  
Can you become girl? Here in this fun world.  
Mix it up with the alpha hits  
Now me Smokey  
Yeah I smoke them trees

They give us ya rim be a second trips  
From nigel back to the Yuka Streets  
I get ya loco everywhere we go  
They juxtapose ??  
Easier Than None

Chorus 1

Chorus 2  
Out of my field, out of my brain  
Got it going on, when you make it insane  
Gonna make it my love time, make it my love time  
(do this can be heard in the background till just before the end of the vocals)

Chorus 3  
Cause this is the right world  
This is the wrong world  
This is the one world  
This is the dark world  
This is a short world  
This is a short world  
Can you become girl? Here in this fun world.

(note; everything's fading by now...)

Chorus 2

How do I feel like I'm  
Alright probably going home  
Gonna make it the same  
Gonna make it my love's time... my love's time... (x2)

Chorus 3

Cause this is the right world  
This is the wrong world  
This is the one world  
This is the dark world  
This is a short world  
This is a short world  
Can you become girl here in the fun world?
