Kangaroo

Camille Saint-SaÃ«ns

Pay no mind to it, oh let it blow
Break you up inside if you don?t let it go
Jeez what are you like, honey? I don?t know
Recommended by my bank
And everybody in the tank
First of all I?d like to thank
This might take while, honey, hey don?t blink
Missing by a mile now we?re here on the brink
Not a day goes by honey, I don?t think
I could be your volunteer
We?ll make the whole thing disappear
Saddle up we?re outta here
You could be my olive branch
Lift me up above the stench
Walk me through the avalanche

Honey, won?t you be my flood?
Nothing ever comes out good
Trouble in the neighborhood
Conversations gone askew
And how do you make it feel like new?
Kookaburra kangaroo
Will you, won?t you be my leach?
Take it all and when I screech
Leave it there just outta reach
Take me to that burning bush
Give me something that I can?t crush
Lead me out into the hush
So far behind, so far behind
So far behind, so far behind, so far behind
