

Crash

Josh Stimpson

[Intro]

It was a night like this
Under the stars one kiss
And I totally knew you were the one
And I had no reservation no That day is still on my mind
I play it over and rewind
But I never get why you never fell
The same way that I did [Chorus]
I wish you gonna crash in me
No turning back totally
Lost in a rush the way that I was
Totally lost in you Why couldn't you crash into me
Why can't tell no past on the things
Holding you back the way that I have
Been doing the same for you [Verse 1]
There's one thing I gotta love...
There's something about your love...
There's nothing without your touch...
Like I swear to you your like an angel from above
And there's nothing I wouldn't do for you...
You take my dreams and you made them true
Without you I wouldn't have a clue...
Took away the grey clouds and but our sky is so blue.
I'll make a world when you need me
No this ain't no cheat believe me
You can put your heart outta line
This time you weren't gonna get hurt believe me
You can trust in me I'll be by ya side and baby I'm not leaving
I'll always be yours cause every girl out there baby I don't see them
I got everything I need and want with you baby you're the reason
I'm dreaming these dreams at night I swear your the only girl in sight
Why would i fight something that's right
And lied to her heart it leads her mind
I swear your the girl when I sleep at night
Make me due what's due to my life [Chorus]
I wish you gonna crash in me
No turning back totally
Lost in a rush the way that I was
Totally lost in you Why couldn't you crash into me

Why can't tell no past on the things
Holding you back the way that I have
Been doing the same for you[Verse 2]
I dint lie you was made for me...
And there won't be a day I leave...
You're special in every way I see...
I was a lifeless soul but the day you came was the day I breathed
And when you came I realized...
That I don't wanna be like every guy...
There won't be a day where I make you cry...
Unless there's a tear that runs down ya face that came from a smile
Ill be the one... That you could count on
And everyone knows the way I feel uh it's a great amount of
And spending my life with you that's something I like the sound of
Just me and you nobody else babe they can shout there mouths off
I don't care what they wanna say now
Am I gonna play now? Am I gonna do wrong?
So don't care what they wanna say now
Am I gonna play now? When you gonna say shun?
And ya heart it will never break down but your gonna take everyday that comes along
I'm so lost in you.[Chorus]
I wish you gonna crash in me
No turning back totally
Lost in a rush the way that I was
Totally lost in youWhy couldn't you crash into me
Why can't tell no past on the things
Holding you back the way that I have
Been doing the same for you
