The Blues In Black and White

Randy Travis

The writing is on the wall, baby
We're different as day and night
But I guess that I refused to face it
The blues in black and whiteWhen I got home I knew [Incomprehensible]
Something was wrong tonight
When I found the note you wrote, it gave me
The blues in black and whiteColor my world without you in it
And the future don't look too bright
And darlin' it's not a pretty picture
The blues in black and whiteSince you've been gone, I'm going crazy
I've got to get on with my life
Maybe I'll write a book and call it
The blues in black and whiteColor my world without you in it
And the future don't look too bright
And darlin' it's not a pretty picture
The blues in black and whiteThe blues in black and white
