

Resurrect With a Vengeance

Hatesphere

Pain is my religion,
I know of nothing elsePushed to the ground, barely up, down again
Redemptions not an option
Revenge will see the light as I resurrectSorrow wrecked my beliefs
I turn the other cheek
Now the scene is set for miseryPushed to the ground, barely up, down again
Redemptions not an option
Revenge will see the lightLearning from all my failures
The beatdowns, the humiliation
Too much to overcome but giving
Not for nothing, for the sake of all mans ruin
Gives me tools to prepare my next coming
To prepare my next comingPain is my religion,
I know of nothing else
The next life will pay the price
Pay the fucking price
