

Karolina

Jann Arden

Karolina's weary from the secret she's keeping
She's got a bottle full of trouble on the shelf she needs it
It's hard to hold it steady when your hands are shakin'
It's harder actin' happy when you're not This is not the life that she had planned

Karolina

She's afraid she's drowning on dry land
Karolina Everyday she's gonna try to give it up, tomorrow
The only thing that's fillin' up her cup is sorrow
She made a deal the day she started drinkin'
Never thinkin' that the drink would take the girl This is not the life that she had planned

Karolina

She's afraid she's drowning on dry land
Karolina Karolina lost everything she found
Karolina sinking down
Leave your past at the bottom of the glass
Off your shoulders
Karolina, wait cause it's never too late
Startin' over Karolina just keep seining all the wrinkles
Wondering if she'll ever get it right This is not the life that she had planned

Karolina

She's afraid she's drowning on dry land
Karolina Karolina lost everything she found
Karolina sinking down
