Time For Deliverance

Gamma Ray

Angels surrounding my soul
Spread wings out of control
One life only one soul
Angels might come every day
Angels might come out to play
And if you can feel you will hear them sayThat it's time for deliverance to save what we are
Time for a future with love deep in our hearts
When there's no way out
From the cold and the dark
It's time for deliverance for us allLost in a hell of illusions and darkness we lay
Forgotten in stories and tales of an ancient array
But still there is hope and someone to prayAnd it's time for deliverance to save what we are
Time for a future with love deep in our hearts
When there's no way outimage:From the cold and the dark
It's time for deliverance for us allWe cannot foresee what will be in the future years
And no one might come to be saving our souls
Still there's a reason to stand up and fight fight fight
For a tomorrow in the rays of the lightIt's time for deliverance to save our future
It's time to unbreak the chains
And love deep from our hearts
Yes we still got a dream to follow
In the cold and the dark
Yes it's time for deliverance for us all
It's time for deliverance for us all
It's time for deliverance for us all ooh ooh ooh ooh
