

Still Calls Me Son

John Waller

I drug his name through
godless places
And I've known shame that
no child of his should know

I've seen pain on broken faces
Beyond all thought of hope

I was just too far from home
Still I always wondered when I
closed my eyes

After all I've done
Could he run to me?
Would he kiss my face?
Could he even look at me?

After where I've been
should he take me back?
For I would understand
I've disgraced him

But it would be amazing
If he still...calls me son

With nothing left for me
to bring him
I left my pride and turned my
heart toward home

I saw my home on the horizon
And from a distance...
I saw my father
Watching for his own
with forgiving eyes

After all i've done
He just ran to me
Then he kissed my face

He would not let go of me

After where I'd been
He just welcomed me
I don't understand
How he put his robe on me

It was so amazing
that he still... calls me son

One day as I breathe my last
And I know my days on earth
have ended
And every hour is spent

I will close my eyes in amazement
And I'll hear angels
They'll be singing...
Amazing Grace

For he will run to me
And he will kiss my face
He will not let go of me

After where I've been
He will welcome me
And I won't understand
How he'll put his robe on me

It will be amazing
that he still... calls me son

Amazing grace
How sweet the sound
When he calls me son..

I once was lost
but now I'm found
'Cause he calls me...
He calls me son
Its just so amazing
heeyyey
