

# Done

## Deep Blue Something

What do you do for fun?  
Will take it out on number one  
Your time is over, your time has come  
Will flip her over man, she is done  
Flip her over  
Flip her over  
Well, now she is done  
Excuse me, Mrs.Right  
I've had a bit too much tonight  
And you are such a lovely sight  
I've had a bit too much tonight  
Flip her over  
Flip her over  
But, now she is done  
Flip her over  
Flip her over  
But, now she is done  
In need of  
In need of  
In need of  
Nothin' and everythin'  
In need of  
In need of  
In need of  
Nothin' and everythin'  
It seems I smell of sin  
It seems I seek to smile again  
Can't wait to see how have you been  
We'll flip her over and fly my friend  
Flip her over  
Flip her over  
But, now she is done  
In need of  
In need of  
In need of  
Nothin' and everythin'  
What do you do for fun?  
Will take it out on number one  
Your time is over, your time has come

Will flip her over man she is done

Flip her over

Flip her over

But, now she is done

Flip her over

Flip her over

But, now she is done
