

# Yellow Birds & Coal Mines

## The Scene Aesthetic

Gather around me,  
I need some time to recollect these thoughts of mine  
You're so kind to stand behind me,  
help me face these fears I've built over the years  
It's so clear your always here  
(I wouldn't leave you here like this)  
and I'm desperate, oh so desperate to feel alive  
(you need someone to help you,  
please let me guide you through this)  
your so kind to offer assistance in my intrest,  
I could've never made it through tonight  
It's so right cause we saw this coming through and I'm still here,  
keep me here I believe  
finding faith you must agree upon a state of action  
keep me posted, still in actionI keep you here cause I believe  
finding faith is what I need  
to take the chances I must take  
before my heart begins to breakI know you have it hard sometimes,  
dont let the bad things rule your life  
Sit back and watch your life take flight,  
you're just so young you have the time  
the time  
just leave it alone x2keep me here I believe  
finding faith you must agree  
upon a state of action  
keep me posted, still in actionI'll keep you here cause I believe  
finding faith is what I need  
to take the chances I much take  
before my heart begins to break  
before my heart begins to breakThanks for being here my friend,  
here with me til the very end of time  
We're gonna do this one together x2Thanks for being here my friend,  
we're gonna do this one together  
Thanks for being here my friend,  
keep me here I believe  
finding faith you must agree  
upon a state of action  
keep me posted, still in action.
