

# Midnight Meet the Rain

## Destroyer

You make a plea for me to come to my senses  
Just like the time before, the time before that  
Visit the symphony and I smell a rat, well  
Midnight meet the rain  
Midnight meet the rain  
Midnight meet the rain  
You were standing on deep waters We fill our cups with rum  
And raise a toast to them  
And raise a toast to the world of scum around us closing in I travel light towards the light  
I suffered a terrible fright last night  
And I've got no interest in getting dressed today  
To go outside and play a game you know so well  
You make a plea for me to come to my senses  
Just like the time before, the time before that  
I visit the symphony, I smell a rat, well  
Midnight meet the rain  
Midnight meet the rain  
Midnight meet the rain  
You've been standing on deep waters  
Midnight meet the rain  
Midnight meet the rain  
Midnight meet the rain  
You've been standing on deep waters  
You've been standing on deep waters  
You were standing on deep waters
