Locomotive

Proket

Locomotive won't stop
Locomotive ain't never gonna quit
Locomotive made of iron and steel
Locomotive I am youFrom the East Bay garage
to the radio dial
we've been noted
for our combative style
You never give up
with no chance to win
We know who you are
And we've been where you've beenLocomotive won't stop
Locomotive ain't never gonna quit
Locomotive made of iron and steel
Locomotive I am youThe Wall Street Bailout
is crooked and stacked
The burdens gonna end up
on the working man's back
I know times are changing
and there's a new sound
I'm glad you all made it
it's good to have you aroundLocomotive won't stop
Locomotive ain't never gonna quit
Locomotive made of iron and steel
Locomotive I am youI am you
