Never Say Never

Brandy

Who would ever thought a guy would want a girl like me
Who would ever thought that I would fall so easily
Who would ever thought that we would finally come to be
I guess they just don't know how much you mean to me
Who would ever thought that they would have some words to say

We'll go on anyway, it's alright, it's okay

Take whatever comes our way together we will stay

I got three words to say, "Never say never"I can't believe they stopped our happiness

By tryin' to pull us down with such a mess

Why can't they let us live just like the rest

And keep us out of all this crazy madness?

Now when they talk I think it's just a shame

That all they do is sit and take my name

When all that I do is mainly

Sit and think about my baby and meNow baby they can't believe that you and me are together

That's why they should have never, never said never

There were times when we thought that

You and me could never be together

That's why we should have never

Never said never said neverWho would ever thought a guy would want a girl like me

Who would ever thought that I would fall so easily

Who would ever thought that we would finally come to be

I guess they just don't know how much you mean to me

Who would ever thought that they would have some words to say

We'll go on anyway, it's alright, it's okay

Take whatever comes our way, together we will stay

I got three words to say, "Never say never"Now there's a lot of talkin' goin' round

About the way me and you gettin' down

What, are they jealous, are they hatin' me?

I guess they all have their own Ph.D's

I wish that they would just stop sweatin' me

Stop tryin' to get the best of me

No matter what they say baby

We gotta move on 'cause we're gonna be happyDid let the thoughts that we had

Did let the words that they said

Keep us from the love we now have

Never say never

Simply for me to see when

Never would've been never if allowed

Now that we are together never say neverWho would ever thought a guy would want a girl like me Who would ever thought that I would fall so easily

Who would ever thought that we would finally come to be

I guess they just don't know how much you mean to me

Who would ever thought that they would have some words to say

We'll go on anyway, it's alright, it's okay

Take whatever comes our way, together we will stay

I got three words to say, "Never say never"Never say, never say, never say, "Never"

Never say, never say, "Never"

Never say, never say, "Never"Who would ever thought a guy would want a girl like me Who would ever thought that I would fall so easily

who would ever thought that I would fall so easily

Who would ever thought that we would finally come to be

I guess they just don't know how much you mean to me

Who would ever thought that they would have some words to say

We'll go on anyway, it's alright, it's okay

Take whatever comes our way, together we will stay

I got three words to say, "Never say never"Who would ever thought a guy would want a girl like me Who would ever thought that I would fall so easily

Who would ever thought that we would finally come to be

Never say never

Who would ever thought that they would have some words to say

We'll go on anyway, it's alright, it's okay

Take whatever comes our way, together we will stay

I got three words to say, "Never say never" Who would ever thought a guy would want a girl like me

Who would ever thought that I would fall so easily

Who would ever thought that we would finally come to be

I guess they just don't know how much you mean to me

Who would ever thought that they would have some words to say

We'll go on anyway, it's alright, it's okay

Take whatever comes our way, together we will stay

I got three words to say, "Never say never"
