Thinking Over

Dana Glover

(Verse 1)
I've been searchin for a reason
And I'm runnin out of time
I can feel that it's the seaon
It's time to make up my mind
(Chorus)
And I can't really tell you what I'm going to do
There are so many thoughts in my head
There are two roads to walk down
And one road to choose
So I'm thinking over the things that you've said
I'm thinking over the things
I'm thinking over, thinking over, thinking over the things that you've said
I'm thinking over, thinking over, thinking over the things
(Verse 2)
Am I ready for forever

Oh God show me a sign
Cause if we're to be together
Then it's got to be divine
(Chorus)
(Verse 3)
He wants to marry me, carry me far away
He wants to love me for life
He wants to be with me every morning I awake
He wants to hold me through the night
Father which way should I go
I can not really see
Oh I love him so
But only you know if he's the one for me
Yeah, yeah, yeah
(Chorus)
