Bite the Bullet

MotÏ†rhead

Stepping out, I'm leavin' here
No use cryin', cryin' in my beer
Enough's enough, believe it's true
Bite the bullet, I'm leavin' youI said, goodbye, I left a note
But I don't remember, what I wrote
The same old words, to say we're through
Bite the bullet, I'm leavin' youYou know that's the way it always ends
Get sympathy from all your friends
Seems there's nothin', nothin' else to do
Bite the bullet, I'm leavin' you
