

# Bite the Bullet

Motörhead

Stepping out, I'm leavin' here  
No use cryin', cryin' in my beer  
Enough's enough, believe it's true  
Bite the bullet, I'm leavin' you I said, goodbye, I left a note  
But I don't remember, what I wrote  
The same old words, to say we're through  
Bite the bullet, I'm leavin' you You know that's the way it always ends  
Get sympathy from all your friends  
Seems there's nothin', nothin' else to do  
Bite the bullet, I'm leavin' you
