

# A Little Luxury

## The Muffs

I can't fall asleep I wanna try  
The only way I'll sleep is if I die I need a little luxury  
Put your arms around me  
And I'll feel better naturally Thinking about everything I do  
Wide awake and thinking about you I need a little luxury  
Put your arms around me  
And I'll feel better naturally I'm afraid that I care and I want you there[solo] I need a little luxury  
Put your arms around me  
And I'll feel better naturally  
And I'll feel better naturally  
And I'll feel better naturally
