

# Pleasure Of Molestation

## Hypocrisy

Conquest is my art  
Some say in God's ear  
I'm yours till you find my noose  
Your name brought us here  
To molest this evil boy  
Leprosy, God's own destiny  
Their gathering brought you to me  
At the altar they recently found you  
Running loose with hellish volition  
In here your soul will be dead  
All livings beings will rot in Hell  
Call my name, I will be  
An admission that ceased to exist  
I curse thee whom I save  
Darkening will soon be here  
Wait, sacrifice my live  
With this evil unholy knife  
With the opening hand to a God  
Fuck Jesus Christ  
Slaves of the lie, they needed eyes  
Users, beggars, believe yours  
(I won't deny)  
Dying for God, I'm not with Him  
Crime is in our hearts  
(You not reveal)  
Leprosy, God's own destiny  
Their gathering brought you to me  
At the altar, they recently found you  
Running loose with hellish volition  
In here your soul will be dead  
All livings beings will rot in Hell  
Sacrifice a virgin on your knife  
Would you be a servant  
For Satan or mankind?  
Sacrificing pieces of your life  
I carry no grief for Jesus Christ
