Forgetting You

James Carr

As I pretend to lay down
you are along dear yeah
I can't help but to keep wishing that you are here
I've done you wrong but now you are gone
what can I do now?
don't make me live the rest of my life forgetting you now
it's too bad, I've been real until you've gone
just what it meant to have a love like you brought my own
but now that you're gone I know I can't go on living here without you now
don't make me live the rest of my life forgetting you now
forgetting you that would be so unknown
but listen baby, how can I forget you? when everyday I love you more and more!
come back to me! I'm lone and blue
don't make me live the rest of my life forgetting you now oh baby
how can I forget you now?
when everyday I love you a little more and a little more
how can I forget you when you filled my heart with so much joy now?
How can I forget you?
oh! oh! when I love you ho so much
how can I forget you when everyday I need you by my side?
Oh I love you baby!
I love you from the bottom of my heart
tell me tell me that we'll never part
I love you baby I love you
