

Massive

Poppy Brothers

i'm ready to blow up
so shoot me into the sun
i don't want to grow up
i'd rather die young
so i'll keep fighting to keep the fire alive
you can find me in the night sky
you won't have to squint your eyes
i'll be MASSIVEthere's no way up
cause we're already at the top
so i'll take a hard left
and never stopi'm ready to blow up
so shoot me into the sun
i don't want to grow up
i'd rather die young
so i'll keep fighting to keep the fire alive
you can find me in the night sky
you won't have to squint your eyes
i'll be MASSIVEblow by blow
they tried to put me out
they sank so low
trying to pull me down
rose till i burned brightly
trail of sparks behind me
if you love me set me free
