Go Away Little Girl

Johnny Mathis

Go away, little girl, go away, little girl
Im not supposed to be alone with you
I know that your lips are sweet
But our lips must never meet
I belong to someone else and I must be trueOh, go away, little girl, go away, little girl
Its hurting me more each moment that you delay
When you are near me like this
Youre much too hard to resist
So go away, little girl, before I beg you to stayWhen you are near me like this
Youre much too hard to resist
So go away, little girl, before I beg you to stayGo away
Please dont stay
