

Century

Dikta

undefeated by myself
the shadow searching through the track
i keep on running and don't look back
i'll find my way somedayhope to see you again, my friend
 but i try, but i try, but i try
 to beat you to the end
 and i try, and i try, and i try
 to leave you there to die
 yes i try, yes i try, yes i try
 will i see you again, my friend
and look fear right in the eye?for just a moment i catch my breath
 look around me, no-one's here
 keep on going and disappear
i'll find my way somedayyou followed me around
 all my life, all my life
 and now there is no sound
 i'm all alone, all alone
