I Still Carry On

Michael Learns to Rock

I'm lying in the sun
longing for a place in the shadow
I'm lying in the snow
longing for a place by the fireAnd when I beg you for water
you just drink the water yourself
And when I reach my hand to you
You just turn your face awayBut even though the cold from you still beating heart
already kill me twice
And even though the cold in your eyes
makes me freeze all the timeChorus
I still carry on and
I still walk around
I still feel the warming glow
Shining somewhere in the future
shining not so far awayI'm climbing up the mountain
mountain of society
But every time I reach the top
you just push me down againAnd when I look around me
I can see I'm not alone
There are a lot of people around
climbing mountains next to meBut even though the cold from you still beating heart
already kill me twice
And even though the cold in your eyes
makes me freeze all the timeChorus
I still carry on and
I still walk around
I still feel the warming glow
Shining somewhere in the future
Shining not so far away
