

The Roots Is Comin'

The Roots

The Roots is comin' (16X)

[Black Thought]I rip the vocal backflip yo the kid is a bad bro

I can drip it hipper than dip into calyp-so

A-dios, amigo, which means I gots ta G-O

Makes you wonder bout my number

Guess my address or my P.O., here's a hint:

I'm from Phila with a Del but not the Rio

Well, I'm guessing here is like exactly where the Phi go

Now, we got the Phila-Del-Phi why not top it off with an A?

The Philadelphiadic rhythmic way I'm straight from Philly

Silly but rugged then a hill-billy

Just like I said before I sport my skully when it's chilly

My cap is from The Lay Up, my bows from The Gilly

The Roots, is out to blow up like a clip from out the milli

or the oo-wop, I do drop, gizzantic, the crew wop

From out the darkest field I goes to pick the funk crop

You can't deny the props so stop before your fronts

get loosened, introducing, The Roots y'all..
