## Changes

## **Thornley**

So I've tried out all the pick me up's

And I've sipped red whine from a Dixie cup

And I can't change, I can't changeAnd I need to see thing's I've seen in pictures

Instead of hangin' around the house

Like a mess in the kitchen

I can't change, I can't change The list of things, I've never done

Just keeps getting longer

I'm tired of trying to put it off until tomorrow

This can't stay the sameSomewhere, there's gotta be something waiting for me

Out there, there's gotta be something more to show me

The list of thing's I've never done

Just keeps getting longer, this has got to changeI'm in the corner of the room like a pile of dust

I've got a voice in my head, screaming

This is enough but I can't change, I can't changeWatching TV is like a kick in the nuts

You've gotta be a brain surgeon or an astronaut

But I can't change, I can't change The list of things, I've never done

Just keeps getting longer

I'm tired of trying to put it off until tomorrow

This has got to changeSomewhere, there's gotta be something waiting for me

Out there, there's gotta be something more to show me

The list of thing's I've never done

Just keeps getting longer, this has got to changeSome things can't stay the same

(Somethings got to change)

Some things can't stay the same

(Somethings got to change)

Some things can't stay the same

(Somethings got to change)

Some things can't stay the same

(Somethings got to change)Some things can't stay the same

(Somethings got to change)

Some things can't stay the same

(Somethings got to change)

Some things can't stay the same

(Somethings got to change)

Some things can't stay the same

(Somethings got to change) And I've tried out all the pick me up's

And I've sipped red whine from a Dixie cup

And I can't change, I can't changeThis has got to changeSomewhere, there's gotta be something waiting for me
Out there, there's gotta be something more to show me

## The list of thing's I've never done Just keeps getting longer, this has got to changeSome things can't stay the same (Stay the same)

Some things can't stay the same

(Stay the same)

Some things can't stay the same

(Stay the same)Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same

(Something's gotta change)

Some things can't stay the same
