

There's A Girl In Texas

[Trace Adkins](#)

When I rode out of Dallas chasing down a dream
I thought I knew what I was looking for
But the neon nights have blinded me 'til I'm lost in Tennessee
Not sure I know who I am anymore But there's a girl in Texas
There's a girl in Texas
There's a girl in Texas
That does You're a truly lovely lady and you sure light up the night
I'm a lonely man but I'm leaving here alone
I won't try to lie to you about this heart of mine
That I can't give that I don't really own 'Cause there's a girl in Texas
There's a girl in Texas
There's a girl in Texas
That does If this dream that I've been chasing ever sets me free
And I wake up to find it don't need me There's a girl in Texas
There's a girl in Texas
There's a girl in Texas
That does Yes, there's a girl in Texas
There's a girl in Texas
There's a girl in Texas
That does Yes, there's a girl in Texas
That I still love baby
