Be Strong

Barrington Levy

Oh, na, na, naI tried my best, never to stop love you
To be there for you, oh
You make my life so miserable
Jealousy and problems, coming to our lifesWe've been together for so long
And we've been through so muchTry to do right
But everything I do, seems to go wrong
If I didn't love you baby
I'd be long gone
I need you now, I need you to be strong
Be strong, be strong, be strongOh, na, na, naEverytime I go out, she always accuse me
Smelling me and telling me, who's perfume is that
Why don't you trust me, you know I'm always faithfull
I'm only looking at the girl, but babs I don't touchWe've been together for so long
And we've been through so muchTry to do right
But everything I do, seems to go wrong
If I didn't love you baby
I'd be long gone
I need you now, I need you to be strong
Be strong, be strong, be strongWe've been together for so long
And we've been through so muchTry to do right
But everything I do, seems to go wrong
If I didn't love you baby
I'd be long gone
I need you now, I need you to be strong
Be strong, be strong, be strongTry to do right
But everthing I do, seems to go wrong
If I didn't love you baby
I'd be long gone
I need you now, I need you to be strong
Be strong, be strong, be strongOh, na, na, na
Be strong, be strong, be strong
