Tied to Stone

Stone Circle

Right girl, wrong track
Canâ€™t get â€˜em off my back
Dad says, â€œLong hair,
Son, youâ€™d best be outta here!â€•

They never knew what we could be
A secret life we had to lead
All the things they did and said
Just to get inside your head
Took our lives and dragged us down
Weâ€™re tied to stone
Weâ€™re left to drownâ€¦

I still love you
I still see your smile
I still want you
I still love you

Sheâ€™s rich, heâ€™s poor
This love he canâ€™t afford
Right boy, wrong class
Momma says â€œThisâ€™ll never last!â€•
No, no

They dreamed of youth with no regrets
But even now I canâ€™t forget
All the things they did and said
Just to get inside your head
Took our lives and dragged us down
Weâ€™re tied to stone
Weâ€™re left to drown

I still love you
And I still see your smile
I still want you
I still love you

The candle lit for you and me
They could never let it be
We never really stood a chance

Oh, just looking back now on the past
And I still see you in my dreams
They canâ€™t take that away from me
And I still feel you near
Girl, forever
Always near

I still love you
I still see your smile
I still want you
I still love you

I still love you
I still see your smile
I still want you

I canâ€™t have youâ€¦
