

# Distance

## Neverending White Lights

Scream out all the ways you notice  
The past is gone, forget what you had  
If youre the only one who knows it  
Then you cant come back to me, I know  
Do whispers of lovers always hold you way  
Underneath the tide in our minds?Dont you wish you were?  
Dont you wish I was?  
Something more than mystery to uncover  
Dont you wish I was?  
Dont you wish we were?  
Lovers without distance from each otherYou say you believe in all this  
But you cant pretend for the sake of faith  
Are we the only ones who mean it?  
For all you give you take from meDont you wish you were?  
Dont you wish I was?  
Something more than mystery to uncover  
Dont you wish I was?  
Dont you wish we were?  
Lovers without distance from each other  
And I had wished you were  
And I had wished we were  
Lovers without distance, distance from each other(If you see them)Lovers without distance from each otherDo  
whispers of lovers
