

In the Meantime

Soulfly

Earth tone suits you
So get up and smile
If I could hold your feet down
Get to know for awhile To make a due is a promise
Hard to keep without help
Never taught to look in
I'm too concerned with my health Help me spread right ash is
Cow fertilized
Come down in a feed town
Strength to minimize
Hold it in the meantime, in the meantime In the meantime, in the meantime
In the meantime, in the meantime
