Born On Judgment Day

Helloween

My mother died close to me
And while I lie sobbin' here
This world's going down with fearArmies of minions is all I see
Creatures in anguish no place to flee
Living their nightmares the fall from grace
And so I'm standing hereI'm born on judgment day
And I have no words to say
Don't know good or bad
Kinda feel so sad
But still I sing this song for youThere's no one beside me
I'm shuddering wearily
Utterly destitute and allNobility has left mankind
Turned into vultures bewildered eyes
Shoved to the abyss a twisting whirl
Under the blood red skyI'm born on judgment day
And I have no words to say
Don't know good or bad
Kinda feel so sad
But still I sing this song for youI'm born on judgment day
And I have no words to say
Don't know good or bad
Kinda feel so sad
But still I sing this songBut still I sing this song
But still I sing this song for you
But still I sing this song
