

# Stand and Behold

Alan Guno

Stand and Behold the Name of the Lord

The power of our Call

Stand and Behold - Hes made us His own

His Mercy comes to all

From the dark night, His Loves Light

Is ours to be claimed

Call on the power of His Name

His NameWe still remember the chains of our past

Silenced by slaverys fear

Out of the darkness, rejoicing at last

Our voices rise out of our tearsCalling His name, desert sands shout for rainStand and Behold the Name of the

Lord

The power of our Call

Stand and Behold - Hes made us His own

His Mercy comes to all

From the dark night, His Loves Light

Is ours to be claimed

Call on the power of His Name

His NameLong well remember the stillness of days

The cries of His passion so new

Run from the tomb that now breathes with our praise

And rings with the hymns of His TruthStrength now is found - with our faith we call outStand and Behold the

Name of the Lord

The power of our Call

Stand and Behold - Hes made us His own

His Mercy comes to all

From the dark night, His Loves Light

Is ours to be claimed

Call on the power of His NameStand and Behold the Name of the Lord

The power of our song

Stand and Behold - Hes made us His own

To Him our hearts belong

And were now sure that His Word

Is ours to proclaim

Call on the power of His Name

His NameNo more will sorrow quiet our days

No more will silence have might

Now will our voices show us the way

Leading us into His light

Stand and behold the Name of the LordStand and Behold the Name of the Lord

The power of our Call

Stand and Behold - Hes made us His own

His Mercy comes to all

From the dark night, His Loves Light

Is ours to be claimed

Call on the power of His NameStand and Behold the Name of the Lord

The power of our song

Stand and Behold - Hes made us His own

To Him our hearts belong

And were now sure that His Word

Is ours to proclaim

Call on the power of His Name

His NameStand and Behold the Name of the Lord
