

Post Blue (Live at Angkor Wat)

Placebo

It's in the water baby, it's in the pills that bring you down
It's in the water baby, it's in your bag of golden brown
It's in the water baby, it's in your frequency
It's in the water baby, it's between you and me
It's in the water baby, it's in the pills that pick you up
It's in the water baby, it's in the special way we fuck
It's in the water baby, it's in your family tree
It's in the water baby, it's between you and me
Bite the hand that feeds
Tap the vein that bleeds
Down on my bended knees
I break the back of love for you
I break the back of love for you
I break the back of love for you
I break the back of love for you
It's in the water baby, it's in the pills that bring you down
It's in the water baby, it's in your bag of golden brown
It's in the water baby, it's in your frequency
It's in the water baby, it's between you and me
