Dig This Well Deep

Howard Jones

With one thing and another
Banged my head against the wall
Always looking over my shoulder
And it makes no sense at allI'm going to dig this well deep
It's a promise I must keep
I'm going to dig this well deep
'Cause I want to find waterI'm going to dig this well deep
Going to sow before I reap
I'm going to dig this well deep
'Cause I want to find waterCynics try to hold me
In the graveyard of their egos
Put my dreams out with the trashman
And they left me on a plateauHolding on and keeping strong
When you are walking on a tightrope
Holding on and keeping strong
When you are wilted down to your last last hopeSee it through to a conclusion
Even if it leads to nowhere
Sometimes there is no solution
But the water tastes as good there
