

Seven Sisters Road

[Meja](#)

The footlights are fading And all the balloons are falling down the last note is playing Where I go to hide here
on the inside I'm not only who they see Cause that is just another part of me Starting all over I wanna go home
it's been a long hard trip and my soul is cold I wanna go home with the sun on my shoulder I'm going home on
the Seven Sisters Road One day I'm a dreamer One minute I'm wisdom a sweet-dream believer so full of
decision Then I'm as grounded as a tree The next I'm a river running free Depends on who I wanna be I wanna
go home Starting all over and my soul is cold I wanna go home It's been a long hard trip with the sun on my
shoulder I'm going home on the Seven Sisters Road I am 7 different faces On 7 different places Say can you
find the heart of me? I wanna go home Starting all over It's been a long hard trip and my soul is cold I wanna go
home with the sun on my shoulder I'm going home on the Seven Sisters Road on the Seven Sisters Road I'm
going home I'm going home on the Seven Sisters Road
