Moonlight Night

Shocking Blue

Do you, do you remember
the smell of grass and the perfume of love
that thrill was in our hearts and for us
that was just enough.
In that moonlight night I got you spell bound
In that moonlight night I got you spell bound.Do you, do you remember
that sweet sigh for love in my ear
the night was ours and the paradise
was coming near.
In that moonlight night I got you spell bound.I walked, I talked, I smiled in a dream
I squeezed, I kissed, I made love in a dream
Oh, that was something I never will forget
Oh, that was something I never will forget
Oh, that was something I never will forget.Lyrics and music: Robbie van Leeuwen
