

# It's Everything

## China Crisis

It's everything  
Yes, it's everything It's everything you'll ever know  
It's everything you'll ever need  
It's everything you'll ever see  
It's everything you'll ever feel Wonderment, pride and pleasure  
Is everything I feel when we're together  
Safe way to be  
It's everything you need when you're with me Stay, when do I learn to stay  
And love, what do I know 'bout love  
It's everything, yes it's everything Influence, guide and treasure  
Is everything we need to last forever  
Safe way to be  
It's everything I need, when you're with me Stay, when do I learn to stay  
And love, what do I know 'bout love  
It's everything, yes, it's everything
